

November 20-24, 2017 – Department of Life Sciences (DSV) - Seminar room, Building Q - Via Giorgieri 5, Trieste					
	Monday 20	Tuesday 21	Wednesday 22	Thursday 23	Friday 24
9:00-11:00		Daniele Sblattero (DSV) ‘Molecular Interaction Discovery by Phage Display and Next Generation Sequencing’		Riccardo Sgarra (DSV) ‘Chromatin and proteomics: a love affair’	
11:00-13:00	Germana Meroni (DSV) ‘TRIM E3 ubiquitin ligases in genetic diseases’	Elvira de Leonibus (TIGEM and IGB Naples, University of Rome La Sapienza) ‘Neurobiology of memory load capacity: from pathophysiology to rescue strategies’	Stefan Schoeftner (DSV-LNCIB) ‘Regulation of telomere homeostasis in human cancer’	Marco Scocchi (DSV) ‘Host defense peptides’	Silvio Bicciato (Department of Life Sciences, University of Modena - Reggio Emilia) ‘Computational methods to explore chromatin architecture’
14:00-16:00	Stefano Campaner (Istituto Italiano di Tecnologia, IIT, Milan) ‘Transcriptional control in health and disease’	Enrico Tongiorgi (DSV) ‘BDNF regulation in neuroscience and cancer’	Gabriele Baj (DSV) ‘Optical microscopy in Cell Biology’	Francesco Napoletano (LNCIB) ‘Drosophila as a model for neurodegeneration and cancer’	Germana Meroni (Coordinator of the PhD in Molecular Biomedicine) ‘Welcome to the PhD program in Molecular Biomedicine UniTS’
