

PhD Programs Functional and Structural Genomics and JUMBO

First Year Courses – December 2018

Monday 10 December

09:00-11:00 RNA structure
11:00-13:00 Engineering the mammalian Genome

Tuesday 11 December

09:00-11:00 Engineering the mammalian Genome
11:00-13:00 Neurobiology of diseases

Wednesday 12 December

09:00-11:00 Neurobiology of diseases
11:00-13:00 Engineering the mammalian Genome

Thursday 13 December

09:00-11:00 Neurobiology of diseases
11:00-13:00 Engineering the mammalian Genome

Friday 14 December

09:00-11:00 RNA structure
11:00-13:00 Engineering the mammalian Genome
14:00-16:00 Neurobiology of diseases

Monday 17 December

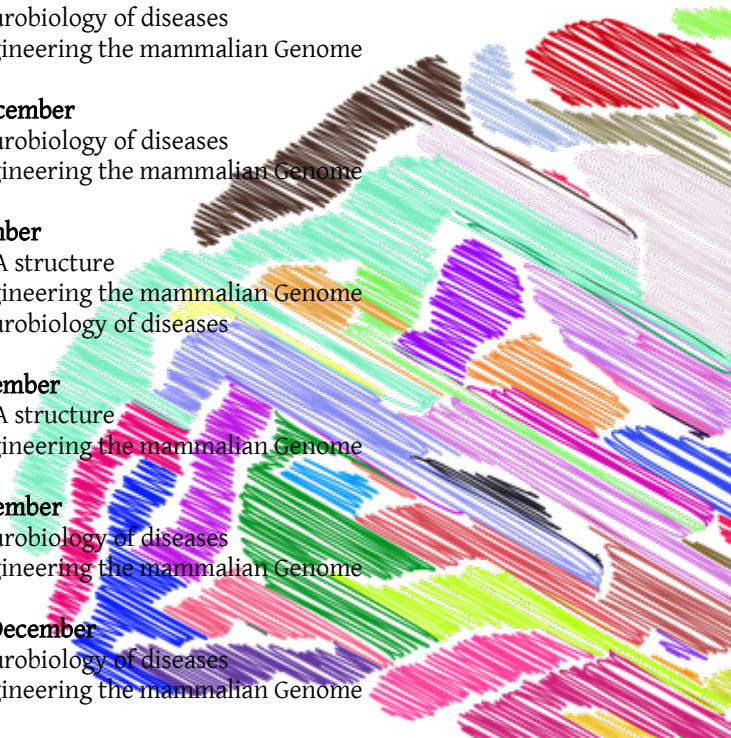

09:00-11:00 RNA structure
11:00-13:00 Engineering the mammalian Genome

Tuesday 18 December

09:00-11:00 Neurobiology of diseases
11:00-13:00 Engineering the mammalian Genome

Wednesday 19 December

09:00-11:00 Neurobiology of diseases
11:00-13:00 Engineering the mammalian Genome

Thursday 20 December

09:00-11:00 Neurobiology of diseases
11:00-13:00 Engineering the mammalian Genome

Friday 21 December

09:00-11:00 Neurobiology of diseases
11:00-13:00 Engineering the mammalian Genome

Professors

Giovanni Bussi – RNA structure
Giuseppe Legname – Neurobiology of diseases
Antonello Mallamaci – Engineering the mammalian genome

Courses will be held in SISSA - main building - room n. 04.

The SISSA campus is located in Opicina (Trieste), in Via Bonomea 265. It can easily be reached via public transportation using the bus 38 leaving from Via Galatti (near Piazza Oberdan).
